

Item description/product images

Description

Material:

Frame aluminium profile 45x45 type B.
 Bearing flanges aluminium.
 Screws steel.
 Belt support stainless steel 1.4301.
 Deflector rollers aluminium.
 Belt support plate 2 mm VA plate.
 Axles stainless steel.
 Conveyor belt transport side PVC hardness Shore 70A (± 5).

Version:

Frame and bearing flanges anodised.
 Screws electro zinc-plated.

Note:

- internal drive
- 24 V DC electrically commutated, highly durable
- minimum installation space, no protruding edges
- integrated control technology
- widths and lengths in 1 mm increments on request
- flexible mounting options with profile system type B
- motor externally adjustable via control cables
- running side of the conveyor belt fabric polyurethane impregnated (TPU)
- conveyor belt fabric polyester (PET)
- conveyor belt transport side has a smooth surface

Technical data:

- nominal voltage: 24 V
- type power: 30 W
- starting current: 2 A
- motor speed: 5000 rpm
- cable length: 5 m
- conveyor belt thickness: max. 2 mm
- cable outlet: right (standard)

Conveyor belt drive:

- brushless EC motor 24 V, 30 W
- control electronics integrated in conveyor belt
- spur gear transmission
- toothed belt drive underneath conveyor belt

Assembly:

Electrical connections/functions (7-wire cable with exposed ends 5 m):

white: +24 V power supply +24 V, protected against polarity reversal
 brown: -Gnd power supply -24 V protected against polarity reversal
 green: direction switched to Gnd, changes the direction
 yellow: disable switched to Gnd, belt stops
 grey: brake switched to Gnd, briefly closes the winding, belt brakes
 pink: speed 0–5 V speed control from 1.25% to 100% of nominal speed
 blue: monitor N digital speed output

On request:

- belt width B from 60 to 400 mm

Item description/product images

- overall length L from 520 to 2000 mm
- other belt materials
- other transmission ratios

Drawing reference:

- 1) Self-locking setscrew (4x)
- 2) Slot width 10
- 3) Aluminium profile 45x45 type B
- 4) M6 (both sides)
- 5) Crowned pulley
- 6) Cable, 7 wire, 5 m
- 7) Motor control housing
- 8) Toothed belt profile T5
- 9) Drive roller, crowned
- 10) Spur gear transmission
- 11) Motor 24 V EC (brushless)

Drawings
